Dear Joe & friends at MASCA,

On a recent trip to the Western part of the state to visit our programs out there, had one of our folks in recovery come up to me and tell me how glad he is that we are there for him ; helping him get his life back together. I got to thinking that this is what we are really all about, helping our folks get their lives back together. providing them with clean and sober housing, job training, and addiction treatment, in short, fulfilling our mission of creating taxpayers. I would not be able to go out and do these things as I have been for fifty years, if it were not for your recent , kind support cheque of \$1000. I wish you could be there with me and see the gratitude on the faces of our folks, be able to watch them improve, and take hold again, as we lead them along our "Glidepath to recovery". This just would not be possible without donations such as yours. We would not be able to expand the programs all the across the state in order to meet the ever increasing demands for our services. The illness of addiction is not something that is just going to go away. Our work continues and continues to expand, there are so many needy people all across the state , and their problems are so vast. It is wonderful for all of here at PYHIT to know that we have people such as yourself who are behind us . Without your help we simply could not do it.

Please be assured of our continuing prayers on your behalf, and once again thank you.

God Bless,

Rev. Peter Young
